

Sayalonga-Corumbela-Arenas, 19K/5H

Suggested starting point: Sayalonga; parking place by the main road. The trip takes you up and down the valleys between the three villages passing beautiful views and small idyllic farms along mostly dirt roads. The last part of the return takes you along the river bed of Rio Algarrobo and through an avocado farm before joining the outbound road. If there is too much water in the river or you want to avoid the avocado farm (no fences or houses there) continue along the main road back to Sayalonga.
