

Alcaucin, 10K/3½H

Suggested starting point: Parking place in Alcaucin close to the main square.

The first 3K through the pine forest is shaded and also steep but the climb is worthwhile coming up to the fantastic views. The path is old and solid partly overgrown but you can't miss it. To the west, north of La Vinuela lake you can see the valley between two hilltops called Lomos de lan Monjas (backside of the nuns). Once reaching the top it is an easy way back partly on an old path and partly dirt road and in the end through an old olive grove with a nice view of the reservoir (Lake Vinuela) before reaching Alcaucin.
