

Isleta del Moro, 17K/6H

Suggested starting point: Parking place in Isleta del Moro.

The walk starts in Isleta del Moro and take the route straight up to the peak of Penones and Caldera Majada redonda back to the coast and Los Escullos and then to La Isleta.

After the Cerro Penones (488m) and the radar mast, the path is unmarked, narrow and follow the ridge. At the end of the ridge there is a very steep and hazardous unmarked trail down to the valley. After a couple of 100 meters there is a clear path that takes you to a dry riverbed and after that it will be a smooth and easy walk down to Los Escullos.
